

Hello! My name is **Harshwardhan Fartale**, and I am currently working as a **Project Associate** at the **Indian Institute of Science (IISc), Bangalore**.

Previously, I served as:

- **Data Scientist** at **Bajaj Finserv Health**
- **Machine Learning Intern** at **Indian Institute of Technology, Indore**

I earned my **Bachelor of Technology in Electrical Engineering** from the **National Institute of Technology, Hamirpur**.

---

## Research Interests

I am deeply passionate about:

- **Machine Learning**
- **Optimization**
- **Natural Language Processing**

---

## Hobbies & Activities

In my free time, I enjoy:

- Exploring history books
- Playing *Age of Empires II*
- Solving mathematical problems

I also:

- Write Blogs on [Substack](#) and [Medium](#)
- Regularly solve [LeetCode problems](#)
- Create Python notebooks to document interesting solutions and techniques

---

PROF

---

## Open-Source Contributions

I actively contribute to open-source projects, currently focusing on:

- **[PULSE \(Python Unified Library for Sensor Emulation\)](#)**

Additionally, I frequently design and contribute machine learning challenges to [DeepML](#), a platform offering LeetCode-style questions for ML enthusiasts.
